## SNAP THEALTH PORTAL

The SNAP Health Portal offers access to your child's school health record which facilitates better communication with your school nurses by providing convenient 24 x 7 access from the comfort and privacy of your own home or office.

## Verification

You are either:

- Accessing this portal from a new unverified device.
- Accessing information for a child for the first time.

Please enter the Date of Birth of:

The first time a parent logs in on a device or accesses a student for the first time, they are required to verify the student's date of birth. Some iPhones don't display the date field correctly but if the user taps right above the Verify button, the date picker will pop up.

This is the first screen the parent lands on.

If you tap the three dots in the upper right you get the student list and the settings menu.

## Tap the student list and it will list all of the students you have access to.
